SUMMARY

Full-stack software developer building practical, user-focused applications with React, Next.js, TypeScript, Node.js, and modern database-driven platforms. Takes projects from discovery and technical architecture through development, deployment, and post-launch support. Brings eight years of account management and operations experience, translating real-world business needs into practical technical solutions.

WORK EXPERIENCE

Full-Stack Software Developer, Freelance (EthanGarrison.com), Orlando, FL, *Jun 2023 - Present*

- Build and ship modern web applications, handling scoping, architecture, development, and deployment.
- Design database-backed software using Postgres, Sanity CMS, REST APIs, and third-party service integrations.
- Write responsive, accessible front ends in React with an attention to performance, SEO, and maintainability.
- Own the delivery pipeline start to finish: Git workflows, CI/CD, Vercel hosting, DNS, and analytics.
- Support and maintain live sites after launch, including content updates, dependency upgrades, and bug fixes.

Creative Tech & Event Lead, Sway Bae - Content Creator (SwayBae.net), Orlando, FL, *Jan 2023 - Jan 2026*

- Built and maintained the public site, supporting daily traffic and ongoing content updates.
- Managed the content publishing pipeline and kept messaging consistent across the site and social channels.
- Coordinated production schedules, content calendars, and filming logistics across creative and technical teams.

Regional Account Manager, Armadillo Ale Works, Denton, TX, *Mar. 2020 - Jan. 2023*

- Managed regional accounts and coordinated with sales and marketing teams to improve operational efficiency.
- Expanded account reach and secured new placements, driving a minimum 75% increase in annual regional sales.
- Built and maintained client relationships through account strategy, product education, and proactive support.

Assistant General Manager, Northside Drafthouse, Richardson, TX, *May 2018 - Mar. 2020*

- Led training, scheduling, and daily operations for a team of 15+ employees.
- Improved workflows, cost controls, and accountability while maintaining customer service standards.
- Coordinated staffing, inventory, operational processes, and day-to-day problem solving.

Account Manager, FullClipCraft Distributors, Dallas, TX, *Feb. 2015 - May 2018*

- Managed and grew a portfolio of client accounts through relationship building and hands-on education.
- Increased product visibility and sales through proactive account management and regular client engagement.
- Developed long-term relationships with customers across a competitive regional market.

TECHNICAL SKILLS

Frontend & Languages: TypeScript, JavaScript, React, Next.js, SQL, HTML/CSS, Tailwind CSS

Backend & Data: Node.js, REST APIs, PostgreSQL, Supabase, MongoDB, Sanity CMS, Authentication

Development & Tooling: Git, Vercel, CI/CD, Performance Optimization, AI-Assisted Development, SEO

PROJECTS

QuikRes (Github.com/egarrisxn/quikres) - AI-assisted resume generation platform

Converts user-provided LinkedIn profile exports into tailored, role-specific resume drafts with TypeScript, React, & Supabase.

ManyLinks (Github.com/egarrisxn/manylinks) - Link aggregation platform

Creates customizable public profile pages built to stay fast with minimal client-side JavaScript, Next.js, & MongoDB.
